### FOCUS ON

### Poland

The second half of 2014 has seen again an upward trend in the delivery of TAIEX assistance to both IPA and ENI beneficiaries. Interest and appreciation for TAIEX continue to be very high among all stakeholders. This demonstrates that beneficiaries believe in the adequacy of TAIEX to help address specific needs driving their demand. With the setting-up of the new Directorate-General 'Neighbourhood and Enlargement Negotiations' the Institution Building Unit will be at the helm of the coordination of TAIEX and Twinning activities in all the regions concerned, while at the same time widening its operations to new horizons. It is looking very much forward to these new challenges.
