TOTAL	587

Number of Experts and Study Visits per Member State

Quality of Experts in 2016

FOCUS ON

Poland

In 2016, TAIEX stepped-up its efforts to raise awareness of the importance of gender equal participation in its activities. Member States have been invited to stimulate the participation of female experts in TAIEX missions, while Beneficiaries and Partners have been encouraged to take into consideration the gender balance when designating participants. Overall, we are proud to observe that the ratio of female to male participation in TAIEX events was reasonably balanced at 45% and 55 % respectively. The situation was however less satisfactory when it comes to experts, where the involvement of women was proportionally much lower at 34%. We are aware that much still needs to be done, but we are decided to strive with renewed strength for an equal participation of women and man in TAIEX activities.
