IPA	Kosovo*	Twinning - Strengthening capacities of Kosovo National Audit Office (NAO)	Technical support and capacity building for the National Audit Office (NAO) to enhance the audit methodology and strategy, in line with the INTOSAI standards, modernise the audit tools and step-up the performance audit, strengthen operational performance and efficiency, enhance the knowledge management and IT systems and integrate data analytics in audits, enhance the structural collaboration with Kosovo's Parliament, Anti-corruption bodies and public procurement authorities to address systemic issues identified during audits, strengthen and diversify the partnership with civil society and improve the transparency and step-up the strategic communication, improve the use of the audit reports, encourage culture of accountability	National Audit Office (NAO)	1,500,000	Q1 2027
	Serbia	Institutional framework of Serbia's agricultural sector strenghtened to ensure full alignement with the EU acquis, particularly Chapter 11	Activity 1.3.1: Capacity Building and Legislative Alignment with the EU Acquis in chapter 11 and 12 areas This activity will aim to strengthen the institutional capacity of relevant departments within the Ministry in charge of Agriculture, Forestry, and Water Management (MAFWM), with a particular focus on the Veterinary Directorate and food safety regulatory bodies. It will provide staff training in the areas of regulatory enforcement, policy implementation, and compliance with EU standards. This activity will also address the alignment of Serbia's legislative framework with EU standards by supporting the full implementation of the 16 systemic laws required under Chapter 12. The activity will also focus on drafting the secondary legislation necessary to implement these laws comprehensively. To ensure broad stakeholder engagement, public consultations and education campaigns will be organized to inform farmers and food producers about the economic impacts of these regulatory changes and the benefits of complying with EU standards.	Ministry of Agriculture, Forestry and Water Economy	1,000,000	Q1-Q2 2027
		Institutional framework of Serbia's agricultural sector strenghtened to ensure full alignement with the EU acquis, particularly Chapter 12	Activity 1.3.1: Capacity Building and Legislative Alignment with the EU Acquis in chapter 11 and 12 areas This activity will aim to strengthen the institutional capacity of relevant departments within the Ministry in charge of Agriculture, Forestry, and Water Management (MAFWM), with a particular focus on the Veterinary Directorate and food safety regulatory bodies. It will provide staff training in the areas of regulatory enforcement, policy implementation, and compliance with EU standards. This activity will also address the alignment of Serbia's legislative framework with EU standards by supporting the full implementation of the 16 systemic laws required under Chapter 12. The activity will also focus on drafting the secondary legislation necessary to implement these laws comprehensively. 		EU support in building capacities for coordination and management of EU own resources under NC33	The overall objective is to support Serbia's progress towards EU accession by ensuring compliance with EU budgetary provisions (Chapter 33) through the establishment of a functional EU Own Resources system. Specific objective: The specific objective is to increase the institutional capacity of the Ministry of Finance and other stakeholders to manage and coordinate on EU Own Resources in line with EU Member State standards. This project will contribute to: • Enhancing the skills of Ministry of Finance and other stakeholders personnel through targeted expertise, training, and knowledge transfer to ensure timely and sustainable alignment with Chapter 33 requirements.	Ministry of Finance	1,000,000	Q1-Q2 2027
		Transition to the FSDN for Enhanced Data Collection and Analysis 2025 and developing of the MIS system	This activity will focus on transitioning from the current Farm Accountancy Data Network (FADN) to the more comprehensive Farm Sustainability Data Network (FSDN). The shift will enable Serbia to improve data-driven agricultural policymaking. The activity will include the development of new data collection methodologies that align with EU sustainability objectives and environmental goals. It will also involve setting up national and regional reporting systems that meet EU standards. In addition, staff within the MAFWM will receive training on data collection, analysis, and interpretation to better inform policy decisions and ensure that Serbia's agricultural policies are aligned with the EU Green Agenda. This activity will also focus on developing of the MIS IT system to ensure compliance with EU requirements from different administrative data sources. This will enable data collectors to more easily check and update data as needed and facilitate the submission of data to the European Commission. The activity will ensure the development of technical specifications for new software, FSDN and MIS	Ministry of Agriculture, Forestry and Water Economy	1,000,000	Q1-Q2 2027

* This designation is without prejudice to positions on status, and is in line with UNSCR 1244 nd the ICJ Opinion on the Kosovo Declaration of Independence.

Region	Beneficiary country	Project title	Project description	Beneficiary Administration	Budget	Current estimated launch date
IPA	Montenegro	Strengthening Administrative Capacities for the Implementation of EU Veterinary Medicinal Products (VMPs) Legislation in Montenegro	Enhancement of public health, animal health and food safety through the alignment with and effective implementation of EU legislation in the field of veterinary medicinal products. 1. Strengthening the administrative capacity of CInMED to fulfil its legal tasks and responsibilities in relation to the marketing authorization and post-authorisation measures and introduction to the EU databases. 2. Strengthening administrative and technical capacities of AFSVPA for the control of VMP supply and use. Improve procedures, guidelines, and inspection instructions in line with EU practices. Enhance data collection systems for antimicrobial medicinal products. 3. Increasing the level of awareness and understanding of EU requirements among relevant stakeholders, including veterinarians, animal keepers and pharmaceutical operators regarding EU VMP legislation and rational antimicrobial use. 4. Enhancement of cooperation between CINMED and AFSVPA.	• The Institute for Medicines and Medical Devices (CInMED) • Administration for Food Safety, Veterinary and Phytosanitary Affairs (AFSVPA) • in cooperation with the Ministry of Agriculture, Forestry and Water Management	250,000	*Q4 2026*
		Strengthening the capacities of the national reference phytosanitary laboratory and administration for food safety, veterinary and phytosanitary affairs for laboratory diagnostics of harmful organisms in compliance with EU plant health legislation	To establish and strengthen the capacities of the newly created NRFL and AFSVPA for effective, sustainable, and EU-compliant implementation of plant health legislation in Montenegro. • Strengthen the administrative and technical capacities of the National Reference Phytosanitary Laboratory (NRFL) and the Administration for Food Safety, Veterinary and Phytosanitary Affairs (AFSVPA) for the implementation of EU plant health legislation, in particular Regulations (EU) 2017/625 and 2016/2031; • Develop, implement and maintain a laboratory quality management system (QMS) and support accreditation in accordance with ISO/IEC 17025 and relevant EPPO diagnostic standards; • Establish and ensure effective functioning of sample traceability and laboratory data management systems; • Enhance laboratory capacities for method validation and verification, as well as participation in proficiency testing schemes and international interlaboratory comparisons; • Strengthen human capacities through targeted training, hands-on exercises, mentoring and knowledge transfer, ensuring sustainability and long-term institutional development; • NRFL established and operational as the national reference laboratory for plant health diagnostics, ensuring compliance with EU legislation.	National reference phytosanitary laboratory and administration for food safety, veterinary and phytosanitary affairs; and Ministry of Agriculture, Forestry and Water management	250,000	Q1 2027
		Strengthening controls and border inspection, as well as legislative alignment and implementation practices in the area of animal health and animal welfare, plant protection and GMOs (related to Chapter 12)	A Full-Scale Twinning project focused on the 1) implementation of official controls across all sectors, including border inspection, 2) the area of animal health and animal welfare, 3) area of plant protections and 4) GMOs. The objectives are: 1. to strengthen institutional capacity through targeted and comprehensive training programs, equip the competent authorities with up-to-date knowledge of relevant EU legislation, risk-based inspection methodologies (document based), and enforcement procedures according to Regulation 2017/625, and ensure the effective alignment of national legislation with the EU acquis. 2. to provide focused and specialized support to the competent authorities in strengthening their capacities to implement and enforce EU legislation in this field. This would include advancing knowledge of disease prevention and control, animal identification and registration systems, movement controls, as well as the enforcement of animal welfare requirements across all relevant sectors, in full alignment with the applicable EU acquis. 3. to enhance the administrative and technical capacities of the competent authorities in planning and applying risk-based inspections, strengthening monitoring and surveys systems for plant pests, and ensuring the proper enforcement of legislation governing pesticide authorization, use, and residue controls, in full compliance with the relevant EU acquis. 4. to prepare MNE authorities to implement new GMO Regulation.	Directorate for Food Safety, Veterinary and Phytosanitary Affairs (AFSVPA), which operates under the Ministry of Agriculture, Forestry and Water Management	1,500,000	*Q1 2027*
		Strengthening Institutional and Operational Capacities for the Implementation and Enforcement of the EU Acquis on the Free Movement of Goods	The overall objective of the project is to strengthen Montenegro's capacity to effectively implement and enforce EU rules on the free movement of goods. The project will improve the work and cooperation of the responsible institutions, strengthen the quality infrastructure and market surveillance system, and provide practical support and training to staff. It will also help Montenegro prepare for participation in relevant EU systems and ensure that products placed on the market meet EU safety and quality requirements.	Ministry of Economic Development	1,200,000	*Q1 2027*
		Support to the implementation of the consumer protection and product safety acquis	The proposed project would take a horizontal approach, covering the entire consumer protection system, including the Ministry of Economic Development, the Market Inspection, sectoral regulatory authorities and other competent enforcement bodies. It would focus on strengthening administrative and enforcement capacities, improving coordination between institutions, supporting the implementation of the consumer protection and product safety acquis, and ensuring the practical application of the new legislation (foreseen in the adopted Administrative Capacity Strengthening Plan under Chapter 28 approved by the EC)	The Ministry of Economic Development, the Market Inspection, sectoral regulatory authorities and other competent enforcement bodies	1,000,000	*Q1 2027*
		Support in the field of company law, business registration, registry governance and BRIS readiness	The project should support the practical implementation of the new legislative framework, including BRIS interconnection, EUID implementation, structured registry data, electronic registration workflows, recognition of foreign electronic signatures, registry governance, data quality, user guidance, and alignment with future EU digital company law developments	Central Register of Business Entities, the Ministry of Economic Development, the Ministry of Finance	250,000	*Q1 2027*

IPA	Montenegro	**Strengthening Cyber Resilience and Critical Infrastructure Protection in Montenegro**	**Overall objective: Fulfillment of activities defined in Montenegro's Cyber Security Strategy, as well as successful implementation of the Law on Information Security aimed at strengthen-ing critical infrastructure resilience. Specific Objective: Establishment of a structured, trained, and operationally ready incident response team within the Cybersecurity Agency. Mandatory resulst: 1. Institutional Strengthening of the Cybersecurity Agency 2. Enhancement of Operational Readiness through Incident Simulation (Table-top Exercise) 3. Strengthening Inter-sectoral Response and Coordination 4. Development of a Crisis Communication Plan**	**Cybersecurity Agency**	**250,000**	**Q1 2027**
		Support to the Railway agency for participation in the EU sustainable and safe railway system	**The overall objective of the project is to strengthen the institutional, technical and operational capacity of Montenegro's newly established Railway Agency so that it can effectively perform its safety, regulatory and passenger-rights supervision functions in line with the EU railway acquis and good practice in EU Member States. The project will support the Agency in applying EU-compliant methodologies, handling concrete cases, preparing analyses and reports, and improving staff competences through study visits and workshops. A key objective is also to prepare the Agency for future audits, assessments and peer-review processes by the European Railway Agency and other relevant EU bodies, thereby facilitating Montenegro's gradual integration into the European railway safety and regulatory framework.**	**Railway Agency**	**250,000**	**Q1 2027**
		Support to establishing the Electronic Exchange of Social Security Information (EESSI) system in Montenegro	**The proposed project would support all relevant institutions to establish functional administrative and operational mechanisms for using the EESSI system, enhancing the professional and technical capacities of the competent institutions, and creating the preconditions for secure, efficient and standardised electronic exchange of social security information with European Union Member States.**	**Ministry of Labour, Employment and Social Dialogue and Ministry of Social Welfare, Family Care and Demography**	**250,000**	**Q1 2027**
		The Montenegrin Investment Account and Alignment with the Savings and Investments Union	**The action would prepare a legal, regulatory, tax and operational model of a Montenegrin investment account, supported by a gap analysis of the existing framework and a compliance check against the relevant EU acquis (MiFID II/MiFIR, UCITS/AIFMD, PRIIPs, Investor Compensation Schemes Directive 97/9/EC, anti-money laundering, personal data protection and tax information exchange – CRS/DAC) where applicable. It would thereby identify the regulatory obstacles and the alignment measures needed, and support the preparation of draft legislation compatible with EU rules. The Savings and Investments Union (SIU) Roadmap for Montenegro would further support gradual approximation with EU capital market policies in the accession process.**	**Ministry of Finance of Montenegro (lead institution). Partner institutions: Capital Market Authority, Tax Administration, Central Bank of Montenegro, Central Clearing Depository Company (CKDD), Montenegro Stock Exchange.**	**250,000**	**Q1 2027**

Enhanced access to best EUMS practices related to the Reforms in Child Justice.	Supreme People's Court of Vietnam	1,500,000	*Q1 2027*
		Support to the Supreme People's Procuracy of Vietnam	Strengthen the institutional and operational capacity of the Supreme People's Procuracy to provide efficient, transparent, and rights-based prosecutorial services in line with EU and international standards	Supreme People's Procuracy of Vietnam	1,500,000	*Q1 2027*
	Cambodia	**EU Global Gateway Energy Transition Investment – Support for Policy and Regulatory Framework with the Ministry of Mines and Energy**	**This project will support the Ministry of Mines and Energy in strengthening Cambodia's energy transition framework by improving energy policy, sector regulation and institutional oversight for renewable energy, energy efficiency and power-sector development. It is expected to help develop transparent rules and oversight mechanisms, strengthen planning and implementation capacity linked to the Power Sector Development Plan and ASEAN Power Grid, and promote EU standards on governance, gender equality, social inclusion, human rights, environmental safeguards and climate resilience.**	**Ministry of Mines and Energy**	**2,925,000**	**Q2 2027**
		EU Global Gateway Energy Transition Investment – Support for Policy and Regulatory Framework with the Ministry of Economy and Finance	**This project will support the Ministry of Economy and Finance in strengthening the financial and investment framework for Cambodia's energy transition, with a focus on public financial management, climate finance and green investment. It is expected to improve the PFM aspects of renewable energy investment, address barriers to private and EU investment, and build capacity on green bonds, public-private partnership frameworks and other green finance mechanisms aligned with Global Gateway priorities.**	**Ministry of Economy and Finance**	**2,925,000**	**Q2 2027**
		EU Global Gateway Twinning in Applied Sciences, Technical and STEM Education with the Ministry of Education, Youth and Sports	**This project will support the strengthening of applied sciences, technical and STEM education in secondary and tertiary institutions in Cambodia, with a particular focus on work-based learning, teacher training, and accelerated STEM pathways (fast-track). It will help improve the quality, relevance and labour-market orientation of technical and STEM education to encourage European investment in Cambodia, while also supporting policy dialogue on the development of a new end-of-secondary-school diploma framework in Cambodia, with the aim of enabling comparability with equivalent qualifications in the European Union.**	**Ministry of Education, Youth and Sports**	**4,000,000**	**Q2 2027**
